

CONGRESS WILL TRY ITS DIPLOMACY

WILL WRESTLE WITH PEACE TREATY WITH SPAIN.

Some of the Members Now in Washington Think the President Has Been Too Lenient—The Future Government of the Islands May Cause Contention.

Washington, Nov. 28.—[Special]—Although congress does not meet till next week, a number of senators and representatives are already here. Naturally our relations with Spain furnish the chief topic of discussion among them, and there is no doubt that this will be the absorbing question of the session. There is but one opinion among those now here, and that is that Spain must concede all that the administration has asked. Some are of the opinion that the United States should take all the Spanish colonial possessions under its protecting wing, save, perhaps, the Carolines, and give to them the blessings of self government. The majority, however, democrats as well as republicans, are satisfied with what has been already accomplished by the commissioners at Paris—the independence of Cuba and the annexation of Porto Rico and the Philippines to the United States. Any treaty of peace that falls short of these requirements will fail of ratification.

There is likely to be some difference of opinion as to the form of government to be established in the acquired territory. There is a substantial agreement upon the fact that the natives of the islands are not yet fitted for self government. Many favor the establishment of a military protectorate and the garrisoning of the islands with a sufficient force to maintain order. Others are inclined to establish territorial governments with the ultimate purpose of fitting the people for the duties of statehood. The differences that exist on this matter, however, are not radical, nor is there a division on partisan lines. There are democrats and republicans on both sides, and it is not likely that the matter will become a party question.

The filling of the offices that must be created seems to be the chief bone of contention. The democrats are naturally loth to place so many new offices in the hands of the appointing power, so long as that power is republican. But as the democrats are in a hopeless minority they will doubtless see that it is useless to make a strenuous opposition, and submit to the inevitable as gracefully as they may.

One thing gives President McKinley great satisfaction—the substantial unanimity with which the policy regarding the settlement with Spain is approved. A few are of the opinion that he might have demanded more of Spain—that an indemnity for the cost of the war other than the cession of territory might have been required—but when confronted with the fact of Spain's financial bankruptcy have little to say, for they acknowledge that assets consisting of Spanish promises to pay would not add greatly to the nation's prosperity.

The policy that will be outlined in the president's message will doubtless meet the approval of members of his party. The democrats may undertake to bring about a few changes in some of its details, but finding their efforts useless will finally acquiesce.

The first and most important matter, however, will be the ratification of the treaty of peace. This will be sent to congress as soon as it is agreed upon accompanied by a special message. This, of course, will require unusual case in preparation, and the president will take ample time to consider it in all its bearings. He cannot outline this message at the present time, but must await the receipt of the official copy of the treaty as it shall be finally agreed upon. It is doubtful if this will be received before the holiday recess of congress. In the meantime the issue can only be discussed in the abstract.

Aside from these matters there will be little to mark the coming session of congress from the majority of previous sessions.

DOESN'T AFFECT JAMESVILLE

The St. Paul Road Reduces Rates For Several Merchandise Articles. The Chicago, Milwaukee & St. Paul road has made heavy reductions in rates on flour, crockery, hardware dry goods, binding twine and canned goods. The new rates which in some instances are a cut of over half the old rates, became effective Nov. 25, and apply from Chicago, Milwaukee and Racine to the Missouri river. The competitors of the Milwaukee road declare they will meet the cut. Local officials of the road say that as far as they are informed this new plan does not benefit Jamesville merchants.

TALK TO LOWELL.

GENERAL LUND DIES AT CONCORD HOME

RESIDED IN JAMESVILLE FOR MANY YEARS.

Early Settlers Well Remember Him As a Man of Sterling Qualities—Was in Agricultural Machinery Business Here and Enjoyed Confidence of All.

General Nathaniel F. Lund, for many years as resident of this city, died the day before Thanksgiving at his home in Concord, N. H.

Thus passes away a personage very well remembered by the older generation of Jamesville, and various other persons in Wisconsin. For many years Mr. Lund figured to a greater or less extent in public life of the state. He was born in 1818 at Bradford, N. H., where his lifelong friend, the late Gen. David Atwood, had first seen the light of day but three years before. He came to Chicago and then to Jamesville, reaching the latter place in about 1856. For several years he was in the agricultural machinery business here occasionally enjoying the luxury of a clerical position at the capitol during legislative sessions. He was a model book keeper and at the state house was soon widely known for his efficiency in that direction. This quality finally led to his appointment as chief clerk under W. W. Tredway, the war time quartermaster general. Gen. Tredway was succeeded by a regular army officer late in 1862 and not long thereafter Gen. Lund was appointed to the place.

From Jamesville he moved to Madison to reside. After the death of his wife he went to Milwaukee as cashier in the office of internal revenue. Some years later he went back to New Hampshire and re-married, and along about 1885 returned to his beloved New England to spend the rest of his days. He leaves a widow but no children. Gen. Lund was a man of the greatest integrity, painstaking to the last degree in the performance of every duty and was respected and esteemed by all who knew him.

ACTOR PAULDING RESIGNS

All Was Lovely When the Company Played in Jamesville.

Frederick Paulding, leading man of the Salisbury Stock company, which recently held the boards at the Myers Grand, has resigned. This unexpected step was taken Saturday evening at Milwaukee and is the outcome of a disagreement between the actor and A. E. Jones, the manager of the company. Mr. Paulding spoke freely on the subject.

"It is true," said he, "that I have resigned. The reason is purely a question of policy in regard to the casting of parts. There was a difference of opinion on the question between Mr. Jones and myself, and I felt the only course for me was the one which I have followed."

STATE COMMISSIONER HERE

W. W. Chadwick Spent the Morning Calling on Local Merchants.

There was a flutter of excitement in certain sections of the city this morning, caused by the sudden dropping in of W. W. Chadwick, of Monroe, who has vested in him the power of assistant state dairy and food commissioner. Mr. Chadwick's business is to see that the laws of the state are strictly lived up to in regard to pure food.

Today he called on several of the local druggists and grocers, and whether or not he found anything wrong yet remains to be seen.

COUNTY PARTIES SUSPECTED

Said That They Knew Something Concerning Postoffice Robbery.

Rock county parties are suspected by the police, of the attempted robbery of the Dayton postoffice, as there were \$1,700 received there the same evening, to be paid out to creamery patrons, of which no one unacquainted with the situation could know anything about; but fortunately Postmaster Dick took his money home with him, and the robbers secured but fifteen cents, much to their disappointment. Arrests may be expected at any time.

SPAIN FINALLY YIELDS THE POINT

CONSENTS TO THE TERMS OF THE UNITED STATES.

The Entire Philippine Group, Including the Seelee Islands, Comes to Us—Madrid Government Says It Surrenders by Compulsion—Reign of Disorder in Havana.

Washington, Nov. 28.—[Special]—Gratification is expressed in cabinet circles when the news were received from Paris that Spain accepts the American terms. There now remains for the consideration of the commissioners only the details of the treaty. Discussion over the wording of the document may take some time, but it is expected it will soon be perfected and signed.

Judge Day said after the joint meeting this afternoon that Spain ceded all the Philippines without restriction for \$20,000,000. The treaty is now being drawn up. The acceptance by Spain of the American terms was accompanied by a memorandum setting forth that Spain yielded only to superior force. The next joint meeting will be held Wednesday.

SPAIN WILL SUBMIT.

She Will Enter a Protest, but It Will Not be Heeded.

Washington, Nov. 28.—[Special]—News from Paris received this morning is to the effect that Spain will accept the terms proposed by the United States and sign a treaty of peace under protest. The protest, however, will amount to little. Europe has always recognized the right of a conquering nation to impose such terms as it chooses upon a conquered people provided those terms were not cruel and did not upset the "balance of power" of Europe. Spain long ago ceased to be a factor on the continent. Her influence in continental affairs has amounted to little or nothing, and while she has been formally consulted in international affairs it has been merely as a matter of form, and not with a view of allowing her to have a voice in the settlement of affairs. She has been the "silent partner" in the great firm of nations, and her wishes have had no influence upon the active members. She is beginning to realize this for the first time. The fact that she is practically a cipher is galling to her statesmen, who are men of unquestioned ability, but the dose, though a bitter one, will have to be swallowed. The treaty of peace will be signed in the course of the present week.

SEELEES ARE INCLUDED.

They Are Considered A Part of the Philippines and Go With Them.

Washington, Nov. 28.—[Special]—Secretary Hay officially denied the statement that the United States had extended its claim to the Philippines to cover the Seelee islands. On the contrary, it is declared that the Seelee group was from the first considered part of the Philippines, and was included in the original demand.

LAWLESSNESS IN HAVANA.

Robbery Is Common and Duelling Has Been Revived.

Havana, Nov. 28.—[Special]—The carnival of crime continues. Highway men are becoming exceedingly bold. Duelling has been revived, and several meetings occur daily. So far only one fatality is reported from this cause. Spanish officers are the principal offenders.

FORECAST OF WEATHER

Chicago, Nov. 28.—[Special]—Forecast for Wisconsin: Rain or snow tonight and Tuesday.

WANT GAME LAW AMENDED

Sportsmen Cannot Get Their Venison From the Northern Woods.

The deer hunting season is over, and some of the local sportsmen who were rather slow in shipping the game they secured are in a quandary as to how they are to get their venison. The railroad and express companies are forbidden by law to transport deer out of season, and consequently it cannot be brought from the northern woods except by private conveyance. Several gentlemen who succeeded in bringing down a deer, are in a quandary. They have nothing to support the statements they have made, not even an antler, and are being unmercifully grieved by their friends.

There is much talk among sportsmen of endeavoring to secure a modification of the law. They are willing to permit the open season to remain as it is, but regard it as no more than fair that they should be allowed a reasonable time in which to get their carcasses from the woods when they can prove that the killing was done within the prescribed limit of time. Such an amendment to the law will probably be offered at the next session of the legislature, and will find many friends.

Show a Balance of Trade.

Washington, Nov. 28.—In the treasury department's October statement are some highly interesting facts showing where lies the balance of trade between the United States and Great Britain. This indicates that we are buying less than we sell. The October imports into the United States were in excess of those in preceding years, while the exports of manufactures from the United States to the United States were in most cases smaller than those in earlier years.

Massacre Was Ordered.

Canea, Island of Crete, Nov. 28.—During the trial today of the murderers of the Tzangaki family the deposition of a Mussulman was read. EASTERN CITIES ARE SNOWBOUND

NEW YORK STRUGGLING FOR RELEASE FROM BLIZZARD.

Several Deaths Have Been Reported, and News of More is Expected—Shipwrecks Have Doubtless Occurred—Storm Was Very Severe Throughout New England.

New York, Nov. 28.—[Special]—The great snow embargo was lifted and this morning the city has come to life again. Thousands of men are at work on the streets, and it is believed that before night the blizzard will be nothing but a memory. A number of persons are known to have perished as the result of the storm, and it is believed other deaths will be reported in the course of the day. The New Jersey and Long Island coasts are still cut off from communication, and shipwrecks may have occurred there. Reports from the New England states, which felt the full fury of the storm, are still meagre. There is no doubt that many vessels were wrecked and lives lost. A full list of the casualties in Boston harbor is not yet at hand.

Boston, Nov. 28.—[Special]—The New England coast, so far as can be learned by telegraph this morning, is strewn with wrecks, and it is probably more than a score of lives are lost. There are thirty vessels ashore on the islands in and about Boston harbor. Twelve lives are known to have been lost from among members of the crews of these vessels.

GILLET ON THE SEA.

Word from the "Cattle King"—His Abilities May Reach \$2,000,000.

Woodbine, Kas., Nov. 28.—Grant C. Gillett, the cattle king, so called, whose failure last week with liabilities estimated at nearly \$2,000,000, startled the live stock trade, is believed to be on his way to Spain. The following telegram is said to have been received in this city by a brother-in-law of the missing plunger:

"New York, Nov. 27.—I will leave today by steamer for Spain. Cable me at Cadiz. How are my wife and baby?" "G. C. GILLETT."

Abilene, Kas., Nov. 28.—As the investigation of the affairs of G. C. Gillett, the missing cattle king, proceeds the situation becomes worse. In the midst of the snowstorm commission firms' representatives were struggling over their claims. Five hundred head of cattle stood in the cars all day Sunday while attorneys fought for their possession.

Gillett's favorite method is said to have been to mortgage a herd of cattle in his own name, then remortgage it in the name of his brother-in-law, his father-in-law and employees. One herd of 500 cows in the territory is claimed to be mortgaged five times—a total of \$175 a head. Keeler & Dake of Denver are looking for 860 head of Oregon yearlings sold to Gillett in September. The cattle, it is declared, did not come to Woodbine. Gillett had paid nothing on them. Instances of this sort multiply, and it is safe to say that the amount of paper out is not less than \$2,000,000.

SPAIN WILL SIGN THE TREATY

Madrid Government Makes Up Its Mind to Yield.

JUDGE DAY IS CONFIDENT.

He Has Informed President McKinley That He Expects No Further Delay—Spanish Troops Rapidly Preparing to Leave Cuba.

Madrid, Nov. 28.—There is now no doubt that the government has decided to accept the American peace terms. Some of the Madrid papers, however, are calling on the Spanish commissioners at Paris to refuse to place their signatures to a treaty, or, if they sign, to do so under protest, declaring that they yield to superior force.

Gen. Correa, minister of war, has ordered Capt. Gen. Rios to prepare to bring home the Spanish troops in the island of Luzon, and as regards the Visayas insurgents to act only on the defensive.

The Sagasta cabinet and the Spanish functionaries in the Philippines deny that the latter have encouraged the Luzon rebels to carry on hostilities against the Americans. All declare that such encouragement has been rendered, but insist that it is chargeable to the Jesuit priests and the agents of foreign powers.

Advices received here from Gen. Rios say that out of 12,000 prisoners in Luzon, soldiers, civilians, women and children, more than 4,000 have died of privation. Under the very eyes of the Americans, Rios declares, numerous murders have been committed and frenzied men and women have committed suicide.

Definite Word from Mr. Day.
Washington, Nov. 28.—Throughout the peace negotiations, which are still pending in Paris, the president has expressed confidence that a treaty satisfactory to the United States would be drafted and signed. Sunday advices were received from Mr. Day, president of the American commission, reiterating the assurances he had previously given the president of the early and successful conclusion of the work of the commission. Judge Day, it is understood, states positively that the Spanish commissioners formally will accept the terms of the United States and that a treaty drawn along the lines of the agreement reached will be drawn and signed in a few days.

Will Protest and Submit.
Madrid, Nov. 28.—The Ministerial paper, El Correo, says: "We understand that if the Americans persist in their intransigent pretensions our government intends to place on record a document that will be signed as a sort of protest, showing that Spain gives up her sovereignty in the Philippines, not in exchange for a paltry material compensation, but because she was obliged to bow to superior, irresistible force." The Imparcial and Heraldo attack the acceptance of compensation for the cession of the Philippines, but financial and commercial circles approve of it.

Certificate Holders to Act.
Cincinnati, Nov. 28.—Holders of certificates of the National Fraternal Union for ten, fifteen and twenty years held a meeting here Sunday at which it was unofficially reported that the indebtedness of the order is \$845,299, that the expense fund has been overdrawn \$39,000, and that there is only \$13,000 cash assets. A determination was expressed to have the whole matter sifted by the courts.

Oppose Extra Session.
Washington, Nov. 28.—It is generally understood between the administration leaders in the house and senate that an extraordinary session of the Fifty-sixth congress is to be avoided. Chairman Dingley of the ways and means committee, who is the Republican leader on the floor of the house, has publicly voiced his opposition to an extra session, and Speaker Reed also opposes one.

TO AMERICANIZE CHURCH.

Roman Catholic Prelates Decide Upon an Important Step.

New York, Nov. 28.—A most important step is under consideration by Roman Catholic prelates in this country. It is the Americanizing of the church, or, in other words, putting an end to the custom of establishing on American soil Catholic churches which retain the names and languages, outside of the Latin ritual, of the countries from which their parishioners emigrated.

News of this victory for the "American" wing of the church was given to the priests of this diocese by Archbishop Corrigan at a meeting of the synod held last Wednesday. He announced that it was the desire of the pope that such titles as "German," "French," "Italian," "Polish," "Greek" in connection with Catholic churches in this country should be eliminated, and that the establishment of them should be discouraged.

Storm on Honduras Coast.
Tampa, Fla., Nov. 28.—The schooner Herrick, which came out of the disastrous storm at Port Cortez and along the coast, arrived here Sunday afternoon. Capt. Thompson says Utila Island, on the coast of Spanish Honduras, was entirely devastated. The number of lives lost cannot be accurately given, as the people fled in all directions, but all the huts and buildings were demolished and their contents lost.

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY.

The Result of Perfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (as led by scientists) are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning of the blood making it thin, weak and lacking in red corpuscles; poisoning the brain, causing headaches and pain in the eyes.

Bad indigestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal, one or two of Stuart's Dyspepsia Tablets because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first.

Style In Jackets

is one of their most important features. No matter how fine the material, how perfect the fit, how excellent the tailoring, if the garment lacks style—lacking this it lacks everything. Our garments have all the good points mentioned above and plenty of style. They come from a maker who is noted for sending out the most fetching creations, and his line for this season is par excellence.

Six sample lines of Coats and Capes have lately been added to the already excellent showing, and on anything in the garment line we know that we stand alone. Controlling so many sample lines enables us to save you one-third—worth looking after I guess.

Millinery

is cheaper here now than earlier in the season, and it was cheaper here then than in other stores. Consequently we are offering millinery values which should challenge the attention of all late buyers. A recent visit to the market secured many mid season novelties as well as some very special values in all lines.

ANTI-SCOFFIELD DELUSION.

Under the above heading, The Madison Journal says:
"The refusal to vote for Gov. Scofield by many republicans is explained by a strange delusion on the part of many who did not know him that he is a corporation-shark. We venture to say that very few who know the man personally voted against him, barring the course those closely identified with the opposition, whose bread and butter hinged on their loyalty. Normally the delusion would have fallen of its own weight, for truth has a way of manifesting itself; but in this case Mr. La Follette's personality and the effective machinery, including many newspapers, was able to carry the delusion for a season. The result was that in many communities one was surprised to find sensible men, good republicans, who seriously conceived that Gov. Scofield was either a weak, vacillating tool in the hands of corporation interests, or an arrogant and shameless trader of the people's interests. Following the instructions of their leaders they voted against him. Many knew nothing of the governor personally, but they knitted him in a spirit of loyalty to their factional leaders.
"The facts are that Gov. Scofield is more independent and untrammelled than most men who have held the executive position; and we venture the prediction that during the coming legislative session he will demonstrate his honest purpose and fearless motive more than once. So far from being antagonistic to popular interests, he is inclined to side with them; though conservative, we are frank to say, rather than radical by nature. He is seriously purposed to do the right thing. We feel sure that at the close of his second term this strange misconception as to Gov. Scofield's temperament and view of public issues will disappear and that no one in the state will be nearer the people."

The county board of supervisors of Wood county are discussing the feasibility of building an insane asylum, and a committee now has the matter in charge. If this committee want to see a model institution of this kind, they can do so by taking a pleasant drive about three miles north of Janesville.

Naval officers say there is a chance of saving the Reina Mercedes. The work should be done if possible. One of the Spanish war vessels should be reclaimed if possible. What better monument to American valor could be provided?

The Mad Mullah is again frisking about on the banks of the Swat, and the pudanucks at the ostrich farm have recovered from their recent indisposition. Hence, an early spring may confidently be predicted.

If, as the Hon. Mr. Sullivan says, the Hon. Mr. Corbett "is a lobster," the Hon. Mr. Corbett is to be congratulated. A lobster doesn't mind being roasted.

Candidates for office should file their statements of expense at once, or get ready to pay a fine ranging from \$100 to \$500.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon, and is pleasant to take. MANY SHIPS LOST IN A GALE.

Thirty-Five Vessels Ashore on New England Coast.

ELEVEN SAILORS DROWNED.

During the Storm the Wind Blew at the Unprecedented Rate of 100 Miles an Hour—Railroad Traffic Stopped at Boston.

Boston, Mass., Nov. 28.—It is known that at least thirty-five vessels have gone ashore in the gale on the New England coast, and the probabilities are that the list will be larger when coast points, cut off from communication now, are heard from. In Boston harbor alone eighteen vessels, two of which were steamers, were driven on the rocks. Eleven lives are known to have been lost, and this is a minimum estimate. On account of the violence of the gale, which, according to the officials of the local weather bureau, reached at times the unprecedented velocity of 100 miles an hour, any attempt at rescuing the crews of the stranded craft was prevented.

The Wilson line steamer Ohio, formerly the Monarch liner Egyptian Monarch, is hard and fast on the ledges of Spectacle Island. She can probably be floated, but it will be a long and tedious job. A short distance away from the Ohio lies the two-masted schooner Virginia. She is broken in two and is a total wreck. Two of her crew were carried overboard by the waves and drowned. The ocean-going tug Cumberland, which started from Baltimore four days ago with two barges, Nos. 1 and 4, of the Consolidated Coal Company in tow, arrived without either. Capt. Mills says that the barges broke away just outside the light. No. 4 he could not find. No. 1 drifted on the breakers and was lost with her crew of four men.

The big four-masted schooner Abel E. Babcock, Philadelphia for Boston, rounded Cape Cod Sunday with the rest of the fleet. When the steamship came up she found an anchorage inside the lightship, but has disappeared.

When the harbor police boat came in late at night its captain reported having seen about thirty vessels ashore in Massachusetts bay, and probably as many more in distress.

About eleven inches of snow has fallen and it has drifted badly in the high winds.

The steamer Portland, Captain Blanchard, of the Portland line, which sailed from Boston on Saturday night, has not been located in any port on the coast. The Portland is a boat of 1,500 tons, and probably carried 200 or more passengers, in addition to a large cargo. The gravest anxiety is felt concerning her safety, as she must have encountered the blizzard while well out to sea, and on a very bad coast, with few available harbors.

One Foot of Snow in New York. New York, Nov. 28.—The result of the storm, which lasted twenty-four hours, is one foot of snow in this city. Where the wind had drifted the snow it rose to heights of four or five feet. Enough wind was moving to keep every one moving. Had it been any day but Sunday there would have been a tremendous mix-up in the city's traffic and general business.

A Western Union official said that the storm extended as far west as the Alleghenies, between the Carolinas and Nova Scotia, and that it was most severe along the coast between Cape May and Cape Cod. This was shown by the condition of the wires. Sandy Hook, Long Branch, and other points along the Jersey coast were cut off up to a late hour Sunday.

Wrecks on the Hudson.

Tarrytown, N. Y., Nov. 28.—A heavy snowstorm, accompanied by a very high wind, struck this section of Westchester county Sunday night, doing thousands of dollars' worth of damage, delaying traffic on the railroads, and wrecking many ships in the Hudson. From Hastings to Tarrytown the shores of the Hudson are strewn with wreckage. Canal boats and sloops and schooners suffered the worst. Off Irvington a tug was sunk, and so far as can be learned all on board went down with it. Its name could not be ascertained. About a half mile below lies a large canal boat high and dry on the shore.

Storm Still Raging.

West Winsted, Conn., Nov. 28.—The storm is still raging throughout Northwestern Connecticut, with no signs of ending. No trains arrived Sunday on the Philadelphia, Reading and New England, or Naugatuck railroads. Officials of both roads have issued orders to the effect that no attempt will be made to start trains until the storm subsides. Two passenger trains on the Philadelphia, Reading and New England railroad are snowed in, and at least three freight trains are known to be buried in the snow either side of Winsted.

Ohio Village Scored.

Akron, Ohio, Nov. 28.—The postoffice at Cuyahoga Falls, Lewis & Son's grocery, the Roethig block, and smaller buildings, comprising a large part of the business district of that city, burned Sunday evening. The fire is of supposed incendiary origin. Loss, \$12,000.

Fights the Indo-British Army.

Simla, Nov. 28.—The mad mullah, who with 600 men has been threatening to pass the Swat frontier, has crossed the Swat river and fighting has occurred between his followers and the Indo-British forces.

Soldiers Escape Smallpox. Fort Monroe, Va., Nov. 28.—The convalescent and sick soldiers who arrived here on the hospital ship Relief from Ponce were transferred to the Josiah Simpson hospital, near Fortress Monroe. Very few are ill, but all are quite weak from the ravages of fever. The men say smallpox is prevalent in Porto Rico, but that the army of occupation seems to be proof against the disease. They declare the only cases that have developed are due to evasion of vaccination, but no soldier who submitted to the surgeons has had the disease.

OVERCOME evil with good. Overcome your coughs and colds with One Minute Cough Cure. It is so good children cry for it. It cures croup, bronchitis, pneumonia, grippe and all throat and lung diseases. People's Drug Co., corner Main and Milwaukee street.

Train Falls Into the River. Roanoke, Va., Nov. 28.—A north-bound fast freight on the Shenandoah division of the Norfolk and Western railway went through a bridge near Riverside, fifty-seven miles north of Roanoke, Sunday. The casualties were: Stevens, Joseph, fireman, instantly killed. Winger, David, brakeman, fatally injured.

Mayo, Stephen, engineer, seriously scalded by escaping steam.

The men lived in Roanoke. The bridge was under construction at the time of the accident and it is reported several of the bridge workers were injured.

Disastrous Prairie Fires. Perry, O. T., Nov. 28.—Prairie fires have played havoc in Oklahoma and Indian territory for the last few days. One farmer lost 1,000 acres of fine hay in the field, several hundred bales of cotton and 500 head of cattle and hogs. He estimates his loss at \$20,000. Millions of tons of hay in bale and bulk have been burned in other sections, and no less than 100 residences have been destroyed. Several lives have been lost in these prairie fires.

I have been taking PISO's Cure for Consumption since 1883, for Coughs and Colds. I had an attack of LaGrippe in 1890, and have had others since. In the Winter of 1896-7, I had a spell of Bronchitis, lasting all winter, and leaving a troublesome cough, until I again tried PISO's Cure, which relieved me.—Mrs. M. B. Three to two, Favorite Base Burners have three hot air flues. Other stoves have but two. Never noticed the flues? Most people haven't. Flues carry the heat from the fire pot around the stove. In a three-flue stove (the Favorite) two flues carry the heat down the outer edges of back and around the extreme outer edges of base to the front of the stove. Here they unite and return across the center of base and up the center of back. Three flues on the back of stove, three flues on the base of stove. Every inch of the stove a positive heating surface. A two-flue stove has but one flue down and one flue up. The three-flue arrangement spreads the heat to the extreme outer surfaces of the back and of the base. The more heating surface you have the less coal you waste.

Pabst Malt Extract

The Best Tonic

is a wonderful aid in the maintenance of health; it is an easily assimilable form of nourishment in illness, and is invaluable in restoring shattered nerves and in convalescence. A doctor writes:

"I have found it especially valuable for persons convalescing from fever, and for nursing mothers. I am highly pleased with it and my patients could not do without it."

At all Drug Stores

Cape Town's Silver Mace.

Following the old feudal custom of presenting a town or corporation with a mace as an ensign of authority, the people of London are about to present the colonists of Cape Town, South Africa, with an expensive silver mace. The design follows the form of the finest maces now in use in England. The head, surmounted by an imperial crown, is divided into four panels by figures of mermaids, typifying the maritime character of the city. The front one is filled by the coat-of-arms of the city, the reverse by those of the colony. The whole of the metal work, which is of silver and richly gilt, was designed and executed by a firm of silversmiths in Birmingham. The mace is said to be among the handsomest in the world.

Influence of Woods on Rainfall.

M. Claudot, French Inspector of Forests, has published his observations, made during several years, on the influence of woods on rainfall. He finds that the mean temperature is always lower in woods than in the open, but the difference is only about half a degree as a rule. Rain is more abundant in wooded lands, other circumstances being equal. There is three or four times more evaporation of water from open ground than from forest in a year, and the difference is greatest in summer. In open ground evaporation is greatest in July, and in forests it is a maximum in April. Woods exposed to the south and southwest receive most rain.

Pay What You Can.

The Swedish doctor on his native heath tends the sick and makes no rates. His wealthy patients pay him handsomely, his poorer patients give what they can afford, and the extremely poor give nothing at all. All get the same treatment. The system appears to have its advantages, but there are grave doubts as to the practicability of its adoption in America. It might resolve itself into a similarity with the payment of taxes on property, the principles of which are so well known that a feature is made of the fact that certain rich men honestly pay in proportion to their resources.

Child Marriages in Algeria.

A census was taken lately in Algeria, and it was found that the youngest Arab married man was twelve years old, and that there were very many boys who were married at fifteen and fourteen, while some at thirteen had several wives. There is a youthful Algerian widower of fifteen and a divorced husband of the same age. Girls are still more precocious, and are sometimes married when only eleven years old, though twelve is the more usual age. There are 139 widows of fifteen and 1,176 divorcees of the same age.

A Geyser Heated Greenhouse.

In the Yellowstone Park Geyser basin a small greenhouse has been erected over a geyser stream. A current of nearly boiling water constantly passes through it. Steam rises in profusion, moistening the plants, and the sun aids in the work, so that an extraordinary rapidity of growth is the result. Lettuce matures in two or three weeks, and other plants grow with proportional rapidity. The climate of the locality is very severe, which makes more striking this example of the utilization of nature's energy.

From Court to Altar.

Cupid played a funny prank at Mexico, Mo., the other day. In the space of an hour Thomas Lewis secured a divorce from his wife and remarried her. In his petition for divorce he charged his former wife and present bride with trying to kill him with a knife and an iron poker and that she cared more for others than she did for him. Nobody knows what caused him to regret his former action.

Fire in an Indiana University.

Kokomo, Ind., Nov. 28.—The Milton B. Hopkins University building burned Sunday. The loss is \$45,000 and the insurance \$11,000. It was a three-story brick building erected forty-five years ago.

AGAIN STIRS UP FRANCE.

Reported Seizure of an Island by Great Britain.

POSITION IS IMPORTANT.

French Newspapers Declare the Country Never Will Consent to the Hoisting of the Union Jack Over Chusan—Report Not Yet Confirmed.

London, Nov. 28.—The last Gaulois at hand says that if the rumor is confirmed that England has hoisted the union jack in the Chusan islands it will be the point of departure of the gravest events, as France will never recognize Britain's pretensions to Chusan, commanding as it does the mouth of the Yang-tse-Kiang river.

When the question of the seizure of these islands was recently before the British cabinet it was decided that the time was inopportune.

It is denied at the Chinese embassy here that any information has been received concerning the report that the English flag has been hoisted in the Chusan islands or that the British government holds the right to prevent any power from occupying the Chusan archipelago.

Shanghai, Nov. 28.—The report received here that the British admiral had hoisted the union jack over Ting-Hai, capital of the island of Chusan, and over several other islands in the Chusan archipelago, is not credited. The British consulate has had no confirmation of the rumor, which probably originated in mistaking the survey marks of the survey ship Water Witch for the union jack.

COUNTY REFUSES TO SETTLE.

Winnebago Authorities Decline to Pay for Woodworkers' Strike.

Oshkosh, Wis., Nov. 28.—The Winnebago county board has refused to pay the expenses of the woodworkers' strike. The sheriff presented a bill for \$5,378 for services and expenses of himself and deputies during the strike. The committee allowed \$21.25 for the care at Fond du Lac of Edward Casey, who was engineer at McMillen's factory, and was accused of having killed striker Morris in the riot at that plant. The other claims, aggregating \$5,347, were for wages of deputy sheriffs, board, conveyances, pistols, clubs, straps, stars and ammunition. The district attorney holds that none of these claims is valid and that the deputies are entitled simply to fees for arrests, etc. One of the local banks is out \$3,500 on the deal, having cashed the time checks of the deputies to that amount.

Officer's Sentence Delayed.

Washington, Nov. 28.—Senator Platt and some of the other influential friends of Capt. Carter, who was court-martialed and convicted of misappropriating government funds at Savannah, have been successful in once more postponing action in this remarkable case. The papers relating to the court-martial of this officer have been in the hands of the president more than a month. The sentence has not yet been promulgated. Capt. Carter's friends are still working in his behalf.

Many Die in Gotham.

New York, Nov. 28.—The snowstorm which broke over this city Saturday afternoon finished its work early Sunday morning. It was the worst storm, in the matter of snow, since the blizzard of 1888. Several men and women have been found dead in the streets and a number picked up unconscious from exposure expired in the stations and hospitals. Many will lose limbs as a result of freezing. Further casualties are feared to-night. Other dead may be buried in the drifts.

Will Quit Havana by Dec. 15.

Havana, Nov. 28.—The Spanish steamer Montevideo sailed Sunday for Spain carrying Arapiles battalion No. 9, first battery of artillery of the fourth regiment and all the employees of the civil guards headquarters and 500 sick soldiers. Several Spanish transports arrived Sunday and will sail as soon as the troops can embark. This means that Havana will be entirely evacuated by Dec. 15.

Big Mill at Joliet Burns.

Joliet, Ill., Nov. 28.—For eight hours Sunday morning the entire Joliet fire department fought flames in the Lake-side mill, owned by David Oliver of Chicago. The fire started in the basement, believed to be from spontaneous combustion. It spread to the third floor, but was prevented from going to the new mill and warehouse. The loss on the building and machinery is \$40,000; insured for \$23,500.

Will Go to Cuba This Week.

Knoxville, Tenn., Nov. 28.—The Thirty-first Michigan and Sixth Ohio regiments have received orders to hold themselves in readiness for movement to Cuba as soon as water transportation could be provided. The two regiments will follow Gen. Snyder and staff and the Fourth Tennessee.

Three Negroes Lynched.

Meridian, Miss., Nov. 28.—Reports have reached here that three negroes were lynched Saturday night four miles west of Meridian. Newton county farmers were said to be on the trail of others implicated in an assault on a white man who came to Meridian on Friday from Newton county.

Annual Officers Are Chosen.

Vincennes, Ind., Nov. 28.—The seventh annual convention of Indiana Endeavorers completed its work Sunday night after announcing officers for the ensuing year as follows: President, Rev. J. W. Kapp, Richmond; vice presidents, Rev. Richard Hayworth, Marion, H. T. McElfresh, Muncie, Rev. F. C. Hood, Columbus, Rev. B. A. Jenkins, Indianapolis, Rev. E. B. Atkinson, Merom, Rev. J. W. McDonald, Logansport; secretary, Miss Jennie T. Masson, Indianapolis; treasurer, Will J. Destol, Lebanon; superintendent, Miss Anna Minnich, Worthington; citizenship, H. L. Whitehead, Indianapolis; temperance, Charles A. Vinnege, Indianapolis; missionary, Mrs. Louise H. Elder, Petersburg; vice president of the World's Christian Endeavor union, Judge L. J. Kirkpatrick, Kokomo.

Five Die in an Explosion.

San Francisco, Cal., Nov. 28.—The river steamer F. C. Walker, plying between this city and Stockton, blew up at 4:25 o'clock Sunday morning. Three were killed outright and eight seriously scalded and otherwise injured. Of the injured two have since died. The dead are:

MRS. HENRY, wife of the engineer.

CAPT. JOHN TULAN.

CHIEF ENGINEER WATON HENRY.

W. A. BLUNT, foreman Moreing's

sugar ranch.

TERRY DAILY, deckhand.

Robbers Held a Mob at Bay.

Laporte, Ind., Nov. 28.—In a lonely shanty on the Kankakee marsh are two burglars, perhaps murderers, at bay, the house being surrounded by a mob. The robbers are well armed and fear summary justice if taken. As their would-be captors have sworn they will not let the men escape a deadly battle seems certain. Bloodhounds located the fugitives, who robbed the creamery of Schlosser Brothers at Hanna of \$500 early Friday morning. The burglars, discovered at their work by D. M. Barber, the manager, shot him, inflicting probably fatal wounds.

Karl's Clover Root Tea for constipation.

Largest Army Necessary.

London, Nov. 28.—The Times, in a leader, approves the recommendation of Secretary of War Alger that congress increase the army to 100,000. It says it thinks, in view of the unavoidable burdens of colonial expansion, especially at the beginning, his estimate is rather below than above the mark.

Threaten to Boycott Omaha.

Fremont, Neb., Nov. 28.—The merchants in this part of the state object to a repetition of the Omaha exposition next year and are generally signing an agreement to purchase no more goods there if it is held again. They say it is an aid to Omaha retailers, but hurts all others in the state.

AIDED BY MRS. PINKHAM.

Mrs. W. E. PAXTON, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, Va., Dec. 31.
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?
